SUMMARY

Motivated and detail-oriented Software Engineering student at Babcock University with a strong passion for full-stack and app development. Skilled in building web applications using technologies like HTML, CSS, JavaScript, React, PHP, MySQL, and Tailwind CSS. I am also skilled in Java and C++. I am eager to gain real world experience through an Industrial Training (SIWES) placement where I can contribute to team projects, sharpen my technical abilities, and grow professionally. Known for being a fast learner, a strong communicator, and a reliable team player with excellent problem-solving skills.

EDUCATION

Lawson International Private School – Primary School

2008 – 2012

Kingdom Heritage Model School – Primary School

2012 – 2017

Sacred Heart Catholic College – Senior Secondary School Certificate

2017 – 2023

Babcock University – B.Sc. Software Engineering (In View)

Expected Graduation: 2027

TECHNICAL SKILLS

- HTML, CSS, JavaScript
- React, Tailwind CSS, React Native
- PHP, MySQL
- Python, Nodejs
- Java, C++

SOFT SKILLS

- Fast learner
- Strong communication skills
- Teamwork and collaboration
- Problem-solving mindset

LANGUAGE

- English

PROJECTS

Parking Management System-EasyPark

A full-stack web application for managing parking bookings and vehicle data. Built with React (frontend), PHP (backend), and MySQL (database). Designed for real-time tracking and user management.

- User authentication (login & registration)
- Admin and user dashboards
- Booking system with slot allocation
- Cancel & manage bookings
- Notification system for upcoming bookings

Recipe App-FlavorHub

A responsive web app that allows users to search and explore recipes from a public API. Built using React, CSS, and Spoonacular API.

- Live recipe search with keywords
- Responsive grid layout
- Click to view ingredients and instructions
- API integration for real-time data
